Our Story

Yavi is a fashion and accessories label which believes that there is more to the garment than what meets the eye. Each piece is carefully created and curated, keeping in mind our handcrafted ethos. Kitsch Vase Story

Yavi's "Kitsch Vase" unfolds as a vibrant still life, echoing the tactile richness of wax crayons and oil pastels. Bold poppies burst against a textured, abstract lattice. This Impressionist-inspired print masterfully blends relaxed elegance with the whimsical, celebratory essence of fine art.

Tuscan Fountain

Yavi's "Tuscan Fountain" channels the fluid motion of water cascading over ancient stone. The print utilizes a fragmented, mosaic-like pattern where thousands of tiny, geometric shapes flow together in sweeping, organic currents. This structured arrangement gives the illusion of a rigid material coming alive, bending and undulating across the fabric.

Bouquet Story

Yavi's "Bouquet Story" gathers expressive floral arrangements, painted with soft, textured strokes that feel spontaneous and full of life. Every piece grows from hand-rendered colour play, where blossoms merge, overlap, and shift in mood across darker grounds. Together they create a narrative of fleeting beauty of lush, emotive, and shaped by the gentle rhythm of painterly intuition.

The Ballerina Story

The Ballerina Story operates like a slow-motion shutter capturing an impossible dance. The depth is entirely optical, created by layers of sweeping brushstrokes and smoky vignettes that mimic stage light cutting through a dreamscape, formulating a movement-inspired story for Yavi's SS27 collection where stillness gracefully gives way to an eternal, delicate flow.

The Schiffli Story

Schiffli dates back to 19th-century Switzerland, its name drawn from the Swiss-German word for “little boat,” a gentle nod to the boat-shaped shuttle that gives this embroidery its signature touch. The technique brings to life delicate, lace-like fabric, rich with intricate detailing.

This season, Yavi finds its voice in Schiffli, a collection born from softness, movement, and ease. Inspired by the quiet rhythms of nature, the motifs reimagine florals, leaves, and flowing forms through a lens of gentle abstraction.
